Engine System

- standards;
- and easy maintenance;

HELI

Wide view and High Strength Lifting System

 Excellent front view which is benefit for the work safety improvementand working efficiency is provide with wide view mast which hasproprietary intellectual property and fork positioner with side shifting.

Gearbox &Torque Converter

Imported ZF 3WG211 transmission box

- ► Tiptronic intelligent gear shifting technology
- Smooth gear shifting without shock
- Easy gear shifting
- ▶ High efficient power matching
- ▶ Safe and reliable; low noise
- ▶ With fault diagnosis function

D

Hydraulic brake system

- Axial piston variable pump with load sensing function is energy saving and silent.
- ▶ Hydraulic controlled pilot operation of control valve has remote control function and is easy and comfort for operation.
- Full hydraulic steering system with steering priority has easy and reliable operation and high reliability.
- ▶ Hydraulic wet type brake system is reliable, stable and free from maintenance.
- ▶ Separated oil tank for hydraulic and brake ensures oil cleanness and reduces the fault code of hydraulic system.

Wet type drive axle

► Maintenance free

Specially designed structure and brake principle provides anti-dust and anti-water function and saves your maintenance cost.

▶ Safe and reliable brake

Working requirements such as Long time, high duty, short distance or frequent brake can be satisfied.

HELI smart fleet management system (optional)

- Vehicle positioning
- Remote diagnosis
- ► Remote monitoring
- ► Maintenance reminder
- Statistical form
- Vehicle management
- ► Identification recognition (optional)
- ► Weight management (optional)

▶ OPS for the whole truck

Truck power will be cut automatically and the truck can not travel.

5

Comfortable and convenient

- Adjustable steering wheel
- ▶ Full suspension seat
- ▶ Integrated console
- ► Easy to get on and off

I

Easy and high efficient daily inspection

Cab electric tilting system

 Automatic tilting system facilitates interior maintenance; Hydraulic drives tilting cylinder with electric assistance making cab tilt 60°right ward which makes maintenance easy.

Engine hood with large opening angle

Open type engine hood which can be open through self- lock spring ensures easy and high efficient maintenance.
